

Telephone Call Record

Date: 5/31/19

Project: I-80, Ridge to US 30

Time: 2:00 pm

Contact: Andrew Hawkins

By: Jarrod Cebulski

Representing: Forest Preserve District of Will County (FPDWC)

Phone No.: 815-722-9425

Subject: I-80 Section 4(f) Coordination

The following notes reflect our understanding of the discussions and decisions made during the telephone conversation. If you have any questions, additions or comments, please contact us. We will consider the record to be accurate unless written notice is received within ten (10) working days of the date issued.

I called Andy Hawkins of the FPDWC to let him know that IDOT will be mailing the FPDWC a 4(f) document for the Joliet Junction Trail (JJT) next week, but will not be sending one for the Rock Run Trail along Houbolt Road at the I-80 interchange. I let him know that since the City of Joliet is advancing their interchange project at I-80 and Houbolt, IDOT has decided to gap their project at Houbolt and tie into Joliet's interchange project, thereby obviating the need to process a 4(f) for the Rock Run Trail since IDOT's work would have no involvement with or impacts to that trail. Andy stated that the FPDWC already has agreements in place for the Houbolt interchange work with the City, which includes placing comp storage for the City's project on FPDWC property.
